

VERBALS: PARTICIPLES

A few weeks ago, you read about Verbals on pgs. 210-214 of the white Grammar book. If you need to, you can reread those pages to help you with this assignment.

First, look over the examples in #'s 1 and 2.

Then analyze, chart, tell what kind of sentence, and parse "carving" in the following sentence. You may use the lower half or back of this paper to do so.

The boy was given a wonderful bench and

he sat carving beside his father.
