

# Addition and Subtraction: Three-Digit Numbers

**Listen**

Listen to your teacher  
read the poem.

How many fans got headbands  
and pennants as prizes?

## Dear Family,

Today our class began Chapter 9. We will learn about adding and subtracting three-digit numbers. Let's do the activity below together so I can review the skills I will need in order to understand the math in this chapter. Then you can read some of the new vocabulary I will learn in Chapter 9.

Love, \_\_\_\_\_

## Regrouping Reminders

Write the addition and subtraction problems below on a sheet of paper for your child to solve. Ask your child to tell whether he/she needs to regroup to add or subtract and to explain the regrouping for each problem. Understanding how to regroup ones as tens for addition and tens as ones for subtraction will help your child understand the regrouping in three-digit addition and subtraction.

## Chapter 9 Vocabulary

also on-line

### regroup

10 ones = 1 ten

10 tens = 1 hundred

10 pennies = 1 dime

10 dimes = 1 dollar
